

Dear Mr. President,

Because of our high regard for you and your love of our precious country and God, I want to inform you that we have written similar letters to all senators, Board of directors of pediatrics, CEOs of vaccine companies, Bill Gates, Dr. Fauci, Dr. Robert Redfield and have enclosed a letter that I want to send to all pediatricians worldwide. It has come to my attention that in 2013 a letter was written by the American Academy Pediatrics. This letter stated, "**ALL parents and patients should be informed about the risks and benefits of preventative and therapeutic procedures including vaccination.**" Nowhere in said letter is anything stated concerning the risks of vaccines; conversely, only the benefits are described – a very slanted, one-sided story. Therefore, I am seeking your help to make these risks known to the American people.

A. We implore you to address the nation and inform the nation of these eleven undeniable facts regarding the dangers of vaccines:

1. The U.S. Supreme Court rules all vaccines unavoidably unsafe.

<https://www.law.cornell.edu/supct/cert/09-152#>

2. None of the vaccines on the U.S. CDC recommended childhood vaccine schedule were tested against an inert saline placebo in clinical trials.

[The Facts About the FDA's Questionable Practices • Children's Health Defense](#)

3. This HHS lawsuit shows that no safety studies have been conducted on vaccines for thirty-three years.

<https://www.worldhealth.net/news/rfk-jr-wins-case-against-government-vaccine-safety-violations/>

4. Compensation for vaccine injury to date: 4.4 billion and counting.

<https://www.hrsa.gov/vaccine-compensation/data/index.html>

[Description of the National Vaccine Injury Compensation Program \(NVICP\) • Children's Health Defense](#)

5. The CDC, frankly, is a vaccine company; it owns at least fifty vaccine patents and buys and distributes \$4.6 billion in vaccines annually through the Vaccines for Children program.

[Examining RFK Jr.'s claim that the CDC "Owns over 20 vaccine \(greenmedinfo.com\)](#)

[FY 2018 Budget in Brief - CDC | HHS.gov](#)

6. In 1986, Congress passed the National Childhood Vaccine Injury Act freeing companies from liability for injuries resulting from childhood vaccines no matter how toxic the ingredients, how negligent the manufacturer, or how grievous the harm.

[H.R.5546 - 99th Congress \(1985-1986\): National Childhood Vaccine Injury Act of 1986 | Congress.gov | Library of Congress](#)

[NCVIA: The Legislation that Changed Everything—Conflicts of Interest Undermine Children's Health: Part II • Children's Health Defense](#)

7. There are two Hepatitis B vaccines licensed for one day old babies in the United States—one manufactured by Merck and the other by GlaxoSmith Kline. Merck's Hepatitis B was licensed by the FDA after trials which solicited adverse reactions for only five days after vaccination. Similarly, GlaxoSmithKline's Hepatitis B Vaccine was licensed by the FDA after trials which solicited adverse reactions for only four days after vaccination.

8. Increase awareness: The law requires "reasonable efforts" to inform the public about the existence of the NVICP, but the total budget for publicity is just \$10,000 a year versus the \$4 billion budget for federal vaccine promotion and development.

9. Vaccines CAN and DO cause injuries. The message that vaccine injuries are rare is not supported by facts and anecdotal evidence. An HHS-sponsored study by the Agency for Healthcare Research and Quality found that vaccine injuries, when tracked using electronic medical records, occurs in one in thirty-nine vaccines given.

[Vaccine Injuries Ratio: One for Every 39 Vaccines Administered • Children's Health Defense](#)

10. Post-licensure vaccine safety surveillance is failing the American people and children around the world. The Vaccine Adverse Event Reporting System(VAERS), where doctors and patients voluntarily report adverse vaccine events, received 58,381 reports in 2018. including 412 deaths,1,237 permanent disabilities, and 4, 217 hospitalizations. An HHS-funded review of VAERS concluded that "fewer than one per cent of vaccine adverse events are reported " to VAERS. The CDC has refused to mandate or automate VAERS reporting.

[ican-reply-december-31-2018.pdf \(childrenshealthdefense.org\)](#)

11. The CDC vaccine researcher-turned whistleblower, Dr. William Thompson, Ph. D. was denied the ability to testify regarding scientific fraud and destruction of evidence by senior CDC officials in critical CDC vaccine safety studies regarding an association between childhood vaccines and autism. Thompson invoked federal whistleblower status and alleges that the CDC destroyed evidence that black boys are 3.36 times more likely to develop autism if they receive the MMR vaccine before age three.

B. Force vaccine manufacturers to make these eleven undeniable facts readily available to the public.

C. Force the American Academy of Pediatrics to also make these eleven facts readily available to the nation on the websites and to make these facts clear in letters written to pediatricians.

D. On October 12, 2017, Eric D. Hargan and the U.S. Department of Health & Human Services were put on notice with this letter.

<https://www.michiganvaccinechoice.org/single-post/2017/10/12/us-department-of-health-human-services-put-on-notice>

It has been over three years and no actions have been taken regarding this letter, so I have resent this letter to the new Secretary Alex Azar and to the U.S. Department of Health & Human Services. It is your obligation to the citizens of America to make sure the request in-said letter is met.

E. Repeal the 1986 vaccine injury act. I implore you to present this information to congress and the public at every opportunity, and citizens then will be armed with facts to put pressure on their elected leaders to repeal and replace the 1986 vaccine injury act.

I am sure you know President Reagan in 1986 signed into law the National Childhood Vaccine Injury Act (NCVIA) which eliminated all financial liability to the vaccine manufacturers due to vaccine injury claims or death unless they committed fraud (i.e., deceit, trickery, practice, or breach of confidence perpetrated for profit or to gain an unfair or dishonest advantage). I beg you to take action regarding the data and information provided in A-E within this letter to prevent vaccine companies from causing more harm to children and committing fraud against the American people. The letters sent to those listed in the first paragraph could be held civilly or criminally liable for injury or death if these facts are not addressed in a reasonable time frame. To protect you and to keep you from committing fraud, you have thirty days to rectify the situation ABOVE. Anyone who is injured or dies from a vaccine thirty days from receiving this letter could hold you along with the 100 senators, the president and board of directors of the American Board of Pediatrics, CEO s of vaccine manufacturers, Bill Gates, Dr. Fauci, and Dr. Redfield-civilly or criminally liable for injury or death By not addressing the four requests stated above, you are helping the vaccine companies commit fraud and can be held criminally and civilly libel. This letter has been sent to you certified, and, as of today, is being made public. We request your prompt attention in sending verification to this email address, website and/or cell number.

Sincerely,
Christopher Key
